

**Although cases of cyber fraud continue to worsen worldwide, Monolith Financial Group goes above and beyond to keep you and your family's data protected.**

**Here's how:**

**EMAIL HOSTING,  
INCLUDING SPAM  
PROTECTION**

Real-time email scans filter our outbound emails, protecting us from incoming spam and store received emails automatically.

**MANAGED  
SECURITY SERVICES**

Managed security services run anti-virus and anti-spam programs to safeguard us from vulnerability.

**NETWORK  
PERFORMANCE  
MONITORING**

Network performance is monitored around the clock to ensure our devices and infrastructure continue functioning properly.

**ENDPOINT  
ANTIVIRUS**

Anti-virus scanning prevents the spread of malicious emails and saves us from losing files if a server should ever go offline.

**IMAGE-BASED  
BACKUP/DISASTER  
RECOVERY**

Proactive disaster recovery programs back up all our data and information in the event of an emergency.
